Solar PV Grant Program Participating Contractors

To be eligible for the SDF Solar PV Grant Program, a PV system must be installed by a Participating Contractor. The goal of the Participating Contractors list is identify installers who are competent, solvent, honest and fair for the installation of systems receiving financial support under this program. A Participating Contractor must include at least one PV installer who holds a certificate of achievement for passing a PV installation proficiency exam or equivalent.

The decision of who you hire to install your solar PV system is probably the most important decision you will make with respect to your PV project. To qualify for the Sustainable Development Fund's Solar PV Grant Program, you must use a Participating Contractor, but the decision of which Participating Contractor to use is entirely yours. The contract for the installation of the system is between you and the contractor and whatever legal liabilities and difficulties arise are entirely between you and your contractor. The SDF is not a party to your installation contract and is not responsible for correcting any problems that may occur.

For suggestions about selecting a contractor, please see *Tips for Choosing a PV Installer* document.

Since the SDF Solar PV Grant Program is winding down, we are not registering any new PV contractors at this time.

The current list of **ACTIVE** listed Participating Contractors as of **January 21, 2009**, are attached below.

Active Participating Contractors In SDF Solar PV Grant Program

<p>SunPower Builders C-02 80 Pechins Mill Rd. Collegetown, PA 19426</p> <p>Contact: Jon Costanza</p> <p>Registered Installer: Jon Costanza I-02</p> <p>NABCEP Certified: No</p> <p>Phone : 610-489-1105 Fax : 610-489-8300 Email : gizmo80pm@aol.com Web : www.sunpowerbuilders.com</p>	<p>Wanex Electric Services, Inc.
